

Nicholas Ventimiglia

C# • Azure • Xamarin • Unity3d

Summary

I started my journey 10 years ago as a contractor building web apps. From there I transitioned to building best practice mobile applications. Today I am a leader in high fidelity networking and cloud architectures.

Skills

- Over 10 years experience in C# and Microsoft technologies.
- Keen understanding of memory management and unsafe code.
- Strong understanding of the cloud and Azure technologies.
- Worked as lead architect on both client and server.
- Very strong UX skills. Understands proper use of animations and controls.
- Experienced with AWS, Azure, Google and other cloud players.

Highlights

- Worked as lead architect on both client and server.
- Lover of networking, having built my own binary protocols.
- Built my own *zero-gc* game servers suitable for shooters.
- Built my own *reflection-less* MVVM framework.
- Architecture for massive multiplayer games on mobile.
- Understanding of data to make informed business decisions.
- Led team members from India, Ukraine, Portugal and Spain.

Nicholas Ventimiglia

C# • Azure • Xamarin • Unity3d

Simple Systems *2005-Current*

- Partner at Simple Systems
